Hainan **NicePal** Industry Co., Ltd. was founded in the 1990s and has gone through more than **30 years** of development. In the process of development, we have always adhered to the concept of research and development and production of green, healthy and nutritious products, and insist on independent research and development and technological innovation to lead the development of the enterprise. We have now developed into a modern agricultural product processing enterprise integrating agriculture, industry, technology and trade and national High-Tech Enterprise.

Over the past 30 years, **NicePal** has relied on Hainan's unique advantages and made full use of the abundant tropical fruit resources. Through independent research and development, production and sales, it has formed a production system, technical research and development system and marketing system for tropical fruit deep-processing series products with a certain industrial scale, a certain market scale, advanced technology, mature technology, excellent quality and satisfactory market. Through **ISO9001** international quality management, **ISO22000** food safety management and **BRCGS** management system certification, a quality management system has been formed to ensure product safety, quality assurance and refined market services. Through long-term investment in technology research and development, the company has full stamina for development. We have obtained more than 30 national patents for technological inventions and practical applications, and obtained the certification of national high-tech enterprises. NicePal has become a leading enterprise in the deep processing industry of tropical fruits.

After more than 30 years' development, **NICEPAL** now has a factory covering an area of more than 200 mu and a factory area of 62,000 square meters. Among them, there are 3,800 square meters of clean room, 2,600 square meters of -38℃~-42℃ frozen storage and 5,500 square meters of -18℃ cold storage. There are 8 fruit and vegetable powder production lines, with an annual output of 36,000 tons of fruit and vegetable powder, 8 production lines of quick-frozen coconut milk and quick-frozen fruit and vegetable pulp, with an annual output of 50,000 tons of frozen pulp. There are 6 production lines of frozen concentrated pulp, with an annual output of 23,000 tons of frozen concentrated pulp, 2 normal-temperature fruit and vegetable pulp production lines, with an annual output of 13,000 tons of normal-temperature fruit and vegetable pulp, and 1 desiccated coconut production line, with an annual output of 2,500 tons of desiccated coconut. Accordingly, modern factory buildings and advanced process equipment have become a solid foundation for the development of NicePal.

The series of products under the "NicePal" brand independently developed and produced by NicePal are divided into six categories: **1. powders of Fruit and vegetable** - coconut powder, mango powder, papaya powder, pineapple powder, banana powder, pumpkin powder, etc. **2. Fruit and vegetable powder applications** - baked fruit powder (bread) series, baked fruit powder (cake) series, etc. **3. Quick-frozen fruit and vegetable pulp** - quick-frozen coconut pulp, quick-frozen mango pulp, quick-frozen blended pulp. **4. Frozen concentrated fruit and vegetable pulps** - frozen concentrated orange juice, frozen concentrated coconut water, etc. **5. Room temperature fruit and vegetable pulps** - coconut pulp, mango pulp, papaya pulp, banana pulp, pumpkin pulp, etc. **6. Desiccated coconut**. There are hundreds of varieties of products in the above six categories to meet the needs of many fields in the market. High-quality products need to be started from the source. The company also has its own controllable fruit base of more than 10,000 mu. The unified and standardized planting management technology ensures the quality, safety and traceability of fruit raw materials, while ensuring the supply of raw materials required for production to meet the market demand in large quantities.

Since its launch, the "NicePal series of products have adhered to the six-word quality policy of **“Colorful, Flavorful, Tasty, Attractive, Satisfied, Useful”** It meets customers' needs for ease of use and good of use, as well as the service concept tailored for customers. It is deeply welcomed by domestic and foreign markets and has been widely used in food and beverage, baking, catering, cold drinks, health care products and other fields. Thousands of long-term and stable merchants have been established in the domestic market, and the products are exported to the United States, Chile, Japan, Southeast Asian countries, etc. in the international market. The NicePal brand has won market recognition with its strength and it has become a leading and well-known brand in the domestic industry.

Over the past 30 years, NicePal has owned a group of leadership groups and production technology sales teams that are united, pragmatic, efficient and have a strong pioneering spirit. In the future, we will continue to work hard, embrace the beauty of youth, be brave in innovation, become bigger and stronger, and sincerely look forward to working together with friends from all walks of life and merchants to achieve win-win development.
